

FROM HAVE TO TO GET TO

THE SIMPLE SHIFT THAT CHANGES EVERYTHING

This isn't just another recovery talk - it's an experience.

A powerful interactive experience where I bring the **12 steps to life** using mentalism and my own 20+ years of recovery.

I show how the steps are not something you have to do but something you get to do... **something you want to do!**

Entertaining , fun and genuinely motivating, the same powerful message with a unique delivery that works.

THE EXPERIENCE

Two 35 minute high-impact interactive sets using **motivational mentalism** to breathe life into the steps followed by open **Q&A.**

THE GOAL

The Shift that **Changes everything.**
We don't have to work the steps
....WE GET TO.

When the shift happens
real recovery begins.
